

Notice of Intent to Issue Clean Air Act  
Title V Federal Operating Permits  
United States Environmental Protection Agency  
Region 8, Air Program

Take notice that the United States Environmental Protection Agency (U.S. EPA) has received an application to issue an operating permit that regulates air pollution emissions from the following source located within the exterior boundaries of the Skull Valley Indian Reservation in Tooele County, Utah:

Waste Management of Utah, Inc.  
Tekoi Landfill

This source is required to obtain a Clean Air Act title V Permit to Operate in accordance with part 71 of Title 40 of the Code of Federal Regulations. The permit will contain all the Clean Air Act requirements that apply to the source and will require that the source conduct monitoring sufficient to enable U.S. EPA and the public to determine whether the source is complying with the air quality requirements that apply to it. This proceeding is subject to the administrative requirements of 40 CFR 71.11.

Members of the public may review copies of the draft permit prepared by U.S. EPA, the Statement of Basis for the draft permit, the application, and all supporting materials submitted by the source, at the Tooele County Clerk's Office in Tooele, Utah, the Skull Valley Band of Goshute Indian's Environmental Programs Office in Grantsville, Utah, and at the US EPA Region 8 office, in Denver, Colorado. All documents will be available for review at the US EPA Region 8 office Monday through Friday from 8:00 a.m. to 5:00 p.m. (excluding Federal holidays). Electronic copies of the draft permit and Statement of Basis may also be viewed at: <https://www.epa.gov/caa-permitting/caa-permit-public-comment-opportunities-region-8>.

If you have comments on the draft permit, you have 30 calendar days from the date of this notice to submit them. You have the right to request a public hearing on the draft permit. Requests for a public hearing must be made by the close of the 30-day public comment period, must include the issues proposed to be raised at the hearing, and must contain your reasons for requesting a hearing. If a public hearing is granted, the comment period will be extended through the date of the public hearing. All comments and public hearing requests should be addressed to Colin Schwartz, U.S. EPA, Region 8, Air Program (8P-AR), 1595 Wynkoop Street, Denver, CO 80202. All comments received on or before June 16, 2016, and all comments made during a public hearing will be considered in arriving at a final decision on the permit. The final permit is a public record that can be obtained upon request. A statement of reasons for changes made to the draft permit and responses to comments received will be sent to persons who commented on the draft permit.

If you believe any conditions of the draft permit are inappropriate or that our initial decision to deny an application, terminate a permit, or prepare a draft permit is inappropriate, you must raise all reasonably ascertainable issues and submit all reasonably ascertainable arguments supporting your position by the end of the comment period. Any supporting materials that you submit must be included in full and may not be incorporated by reference, unless they are already part of the administrative record for this permit proceeding or consist of tribal, or federal statutes and regulations, U.S. EPA documents of general availability, or other generally available referenced materials.

If you would like to be added to our mailing list to be informed of future actions on these or other Clean Air Act permits issued in Indian Country, please send your name and address to Part 71 Permitting Contact, U.S. EPA Region 8, Air Program (8P-AR), 1595 Wynkoop Street, Denver, CO 80202-1129.
